

2019 eLearning Academy

Universal Design for Learning - *Find your Missing Piece*

September 10 and 11

Presented by eLearning and the
Community Colleges of Spokane

Session Summaries

Tuesday

September 10

Check-in & Brunch

9:30 am

Opening Remarks and Featured Speakers

10:30 am-12:30

The 2019 eLearning Academy opens with a keynote presentation from Dr. Thomas Tobin. Dr. Tobin is currently the Program Area Director of Curriculum and Professional Development at the University of Wisconsin. He holds a Ph.D. in English literature, a master's degree in information science, and professional certifications in project management (PMP), online teaching (MOT), Quality Matters (QM), and accessibility core competencies (CPACC).

He serves on the editorial boards of eLearn Magazine, InSight: A Journal of Scholarly Teaching, the Journal of Interactive Online Learning, and the Online Journal of Distance Learning Administration.

Keynote Speaker

Dr. Tobin is an internationally-recognized speaker and author on topics related to quality in distance education and accessibility

Since the advent of online courses in higher education in the late 1990s, his work has focused on using technology to extend the reach of higher education beyond its traditional audience.

"I advocate for the educational rights of people with disabilities and people from disadvantaged backgrounds."

Session 2

12:40pm

Answers from the Archives: Finding Reputable Online Sources

Monica Stenzel

Room 265

Reputable online sources can be a tricky topic for students. Give them access to primary documents through online access to local, state, federal, and institutional archives of documents, photographs, and artwork. Many sites also include citation makers, which students can use directly or alter for their disciplines. We'll discuss Spokane, Washington, American, and collegiate archives, with ideas for finding more for your own class.

Setting the Tone for Success: Strategies for Week One Assignments

Diamond Wilson & Erin Huebener

Room 271

Get higher quality student work starting week one! Participants will leave with a toolkit to help build relationships, establish expectations, and give students the skills they need to be successful throughout the course. This is a hands-on workshop, so please bring an assignment you would be interested in using during week one.

Highlighting McGraw Hill Connect

Amelia Kenney and Jiline Mix

Room 264

McGraw-Hill Connect is a digital teaching and learning environment that saves students and instructors time while improving performance over a variety of critical outcomes. Learn the tips and tricks of McGraw Hill's Connect with McGraw "rep", Jiline and "tech", Amelia.

Online Academic Success Workshops

Ric Villalobos

Room 268

Learn about the introduction and history of the online academic success workshops. These are available completely online and cover a wide variety of topics such as: Learning Strategies, Time Management, Career Planning, Math Study Skills, Organizational Skills, Test Anxiety, Test Taking, & Procrastination. Join us to learn about the development of these online resources and how you can use them in your class!
