

Northwood Technical College – Faculty Professional Development Day
Tobin, “Secrets of Universal Design for Learning for Technical College Faculty”
May 25, 2023

Participant Rating Results

Attendance: 295

Respondents: 35

1. Please indicate your level of agreement: over all, this session provided good value to me.

2. In a few words, share your over-all impression of this session.

- All of the good information that was presented.
- Dr. Tobin’s presentation was engaging, practical, and informative.
- He helped me understand the many aspects of Universal Design.
- I liked Dr. Tobin’s engaging presentation style that kept the participants engaged in the content. I also appreciated that he offered 2 promises at the beginning and followed through on those promises.
- I liked the personal stories shared.
- Key Note speakers Engaging with people face to face in RL [real life?].
- Let’s continue with UDL and Accommodation discussions. Meeting students where they are at. Tips/tricks/requirements/laws/etc.
- Loved the UDL presentation.
- The inclusivity [sic] items were very interesting.
- The presenter modeled the way! He incorporated what he was talking about into how he was presenting to demonstrate that it could be done! That was awesome!
- The speaker was very good.
- The training was good. The college needs to make decisions on definite goals and guidance for implementation. Would have been nice to have this training and the college’s guidance prior to [adopting Blackboard] Ultra.
- The universal design keynote gave us a variety of learning opportunities, modalities and choices.
- Time is always difficult on professional development week. If there might have been time after the presentation to identify 1 thing to change to provide the action step to beginning Universal Design for Learning, that would be my only suggestion. But the day was jam packed already—it was a REALLY good training. Thanks for bringing in Dr. Tobin.
- Tobin’s presentation on universal design was excellent! He made the presentation very engaging.
- Tom Tobin was an EXCELLENT presentation and much needed. I hope people took this to heart and plan to implement. I feel there needs to be follow ups on this so that we are continuing to strive for UDL.
- Tom was a wonderful speaker. He utilized UDL in the training to show how it can work. He was interactive, responded to everyone, and was engaging. I would recommend him anytime. I just hope we continue to discuss this/put into action with all instructors to get UDL more in place for our students.
